WEB ECLIPSE CARBON FIBER KNEE BRACE

SIZES:

- » 12K CARBON FIBER FRAME - Lightweight and crafted with a reinforced rib contour construction that's engineered to withstand substantial forces and torsional stress
- » FLOATING KNEE CUP SYSTEM - Self positioning CE Certified HEX Pro Impact Technology floating knee cup that finds the center of the knee upon flexion and extension to provide complete knee protection coverage
- » FLEX WINGS - The Flex Wings are located on both upper and lower knee brace straps, designed for diverse leg shapes, providing a snug, pressure-free fit that stays securely in place
- » TRUMOTION 3.0 HINGE - Mimics the knee's natural flexion and extension allowing the brace to flex on the same 2 axes as the knee joint
- » TRAC GRIP - Strategically positioned high traction silicone on the liner effectively deters movement and enhances the knee brace's secure fit on your leg
- » 4-POINT STRAPPING SYSTEM - Engineered for a secure, comfortable fit that stays in place during high-intensity rides, thanks to its stretch fit strap technology, moisture guard straps, and flexible hook and loop closure, ensuing both safety and comfort while riding
- » RAPID LOCK SYSTEM - Experience hassle-free convenience with our Rapid Lock System—a quick release, easy on/off closure system with the press of a button
- » CE IMPACT TESTED AND CERTIFIED - Level 1 (1621:1)

**AXIS PRO
KNEE BRACE**

SPACE GREY/CARBON FIBER

SIZES:

- » ALUMINUM CARBON FUSION FRAME - An aluminum lower frame fuses to a carbon fiber upper cuff, allowing for a lightweight and strong brace
- » STRETCH FIT STRAP TECHNOLOGY - An elastic material that expands and compresses, providing a comfortable and secure fit
- » DUAL DEFENSE KNEE CUPS - two interactive knee cups slide with your knee's flexion and extension to provide complete coverage knee protection
- » HYPEREXTENSION LOCKOUT 30 - A hinge component designed to prevent the most common knee injury in action sports (hyperextension) by accommodating a variety of knees and riding styles, with hyperextension lockout from 0°-30°

- » COMFORT CUFF - A neoprene compression cuff is designed to wrap around your calf to limit lower leg migration
- » 5-POINT STRAPPING SYSTEM - Used to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from the other
- » SHARK SKIN ANTIMICROBIAL LINER - Provides soft cushion support and a textured surface to limit knee brace migration
- » TRUMOTION 2.0 HINGE - Mimics knee movement giving the rider a more natural stance.
- » CE 1621-1 and EN 1621-1 certified
